

COMMON APPLICATIONS

Internal medium to high security domestic and selected commercial and retail applications. Made to measure in powder coated pre-galvanised steel.

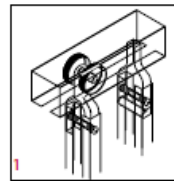

CONSTRUCTION

Lattice

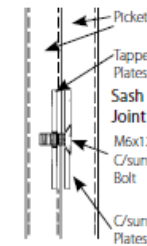

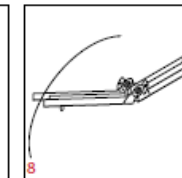

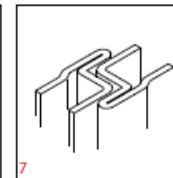

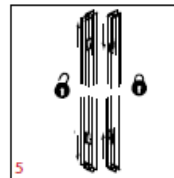

High grade steel in 'X' lattice as standard and 'S' lattice as an option. Weight 19 kg m² nominal

GENERAL ARRANGEMENT

- 1 Top hung on nylon coated steel bearings
- 2 All galvanised steel construction
- 3 Powder coating in a range of colours
- 4 Fits within or around the reveal
- 5 Multi-point locking from single key – 2 point
- 6 Strong steel lattice with smooth durable finish
- 7 Overlapped locking profiles
- 8 Optional folding bottom track
- 9 Steel rivetted lattice assembly system.

Gate Height Range (mm)	Number of lock hooks available
100	2 (4 optional)
1000-501	2
500-350	Fixed Panel

Please note: SeceuroGuard 1000 can accommodate an unlimited width with multiple sashes. Sashes are made in single pieces up to 2 m wide. Larger sizes are made in sections for assembly on site, ensuring the weight of each section can be handled safely. Gates which are wider than 4 m will be supplied with the top track in two pieces, the split will be in the middle. Where two split sashes meet two pickets are joined together using bolts and fixing plates supplied loose (see illustration above).

Replacement lock	Code: YGA133L0	£40.85 (specify keyed alike/different)
Lock post	Code: YGA03150	£5.29 per metre

THIS PRODUCT CAN BE POWDER COATED
See page 66

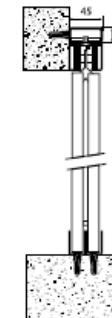

SeceuroGuard 1000 can be supplied in Band A & B colours at no extra charge. See page 66 for further details. For external applications, a dark colour is recommended.

***Please note:** Folding tracks with a length of 600 mm or more are supplied with a retaining pin as standard. This is located between 488 mm and 568 mm from the ground regardless of track length. The retaining pin projects 60 mm beyond the lock post when the track is lowered and 30 mm when raised. If the width of the gate is greater than the height check that there will be sufficient room for the bottom track to fold up into.

There is an extra lead time for component gate sections, please call 01524 772400 for details.

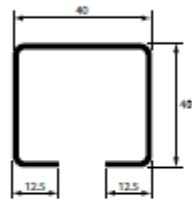

FACE FIXED SIDE ELEVATION

The standard arrangement for a face fitted gate is as shown with the top track and sides face fixed and the bottom track reveal fixed. When ordering please identify clearly how each side of the frame will be fitted. Importantly, the size of your order will be manufactured to a height including fixing frame(s).

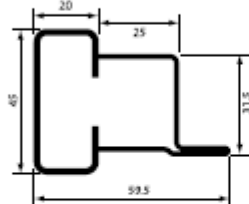

Bunch Sizes

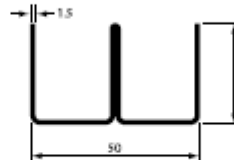

All clear opening sizes for single sash gates allow for the slam post. For hinge aside gates or folding bottom tracks, the bunch size is increased by a further 60 mm per sash

Top Track

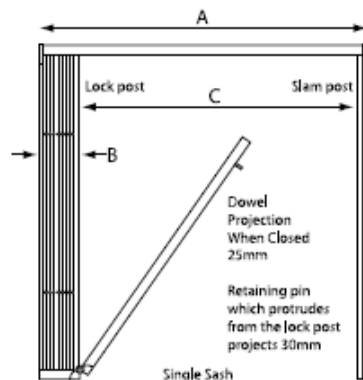

Single Sash Slam Post

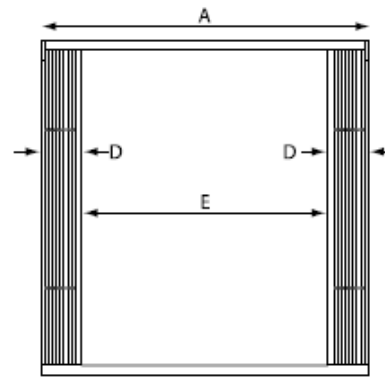

Bottom "W" Track

Bottom "T" Track

Single Sash

Double Sash

SeceuroGuard 1000 Retractable Security Gate

Common Use : Internal medium to high security domestic and selected commercial and retail applications. Made to measure in powder coated pre-galvanised steel.

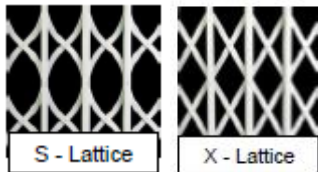

CONSTRUCTION
